Programing languages

- Python
- c, c++, c#

ABOUT ME

I'm a third-year student to diving into the world of frontend development through an internship. I have hands-on experience with tools like React, Next.js. Currently, I'm on a learning spree, expanding my skills and embracing fresh challenges. I thrive on pushing boundaries, adapting to new technologies, and turning ideas into innovative solutions.

EXPERIENCE

GAME DEVELOPER INTERN

True Axion Interactive Co., Ltd
Apr 2023 - Jun 2023

- Implemented features (Daily reward, Loot box reward list, Quick access, Game credits) for the "Nice to Z You" game using Unity and C# based on Jira's design.
- Acquired valuable experience in teamwork, particularly in the context of Scrum methodology, and significantly improved communication skills while collaborating within the development team.

PERSONAL PROJECT

MEEORDER

[MEEORDER-GITHUB](#)

Kasetsart University
Jul 2023 - Oct 2023

- Developed a Restaurant POS web application with a 13-member team.
- Implemented features like Use coupon, User management, Sale report page using React and AJAX for backend communication, based on Figma design.

SRCP

[SRCP-GITHUB](#)

Kasetsart University
Feb 2023

- Collaborated with a 3-person team on the Mini project Smart Reserve Car Park.
- Contributed to the backend while working closely with the frontend and hardware teams.
- Developed backend functionalities using FastAPI.
